

27th October 2010

TO WHOM IT MAY CONCERN

The Eastern Branch of the Auckland Registered Master Builders were recommended Rhett Brown a guest speaker for our general meeting for our branch members on 21st October 2010. I had heard through two other industry people who had been to a presentation that Rhett had given & were very impressed with the way he delivered his message.

Rhett's story & delivery is very hard hitting & to the point. I have never been to a meeting or presentation by a speaker where there had been dead silence in the room before. Speaking to our members after the meeting they were all very moved by Rhett's presentation. He certainly gave everyone a huge wake up call in their own work place safety. I am sure by Rhett doing his presentations through the county he will save lives in our industry.

We would recommend Rhett Brown as a speaker to anyone thinking of using him.

Yours sincerely

Nigel Benton
President, Eastern Branch of the Auckland Registered Master Builders
